Hutson Roofing

1309 Central Court

Hermitage, TN 37076

We are located in Nashville, TN. A few months ago we experienced a severe storm that encompassed a lot of hail. Last year following a series of storms, we had to have our roof replaced which was taken care of by our insurance company. Following the hail storm we felt our roof should be fine as it was new. Contractor after contractor came to our door and we insisted it was fine. Then one day Joshua Swain from Hutson came to the door and said 'why I don't I inspect if for you just to be sure. It won't cost you anything.' As it turned out, the roof needed to be replaced again plus there was severe damage to the gutters as well. Our insurance company concurred and a couple of weeks later the project was complete.

I felt so comfortable throughout the process. Joshua was personable, professional and a man of his word. I told my neighbor across the street to talk to him and she felt that same level of comfort. He made us feel he was there to be our partner throughout this process, not just to make a few bucks and get out. Everything happened just like he said it would and he was here to lead the project every step of the way. The roofing team showed at exactly 7AM. All were in company shirts and very professional. Joshua told me they should be done around 2PM. They were complete around 1:30. Joshua did a walk about with us before the crew ever left.

I have watched as some of my neighbors had other companies replace their roof. They appear lazy, messy and took an exorbitant amount of time.

We are pleased to recommend Hutson Roofing to anyone. I met several people that were with the company during this process and all were equally as pleasant. We feel very grateful that Joshua came to our door and never tried to sell us a thing.

Thank you so much!

Niki & Randy Yarbrough
